

## Harbor of Refuge

Builder / Architect: Glennwood Custom Builders, Petoskey  
Interior design: Jill Rowley, Glennwood design team

Stark and stunning not only describe the master bedroom of this Lake Michigan home, but the entire house. The homeowner has decorated in mostly all crisp white and shades of black, from the floors to the ceilings. In the upper-level master suite, a black antique bed sits atop black wood floors amid the whitest of white walls and custom cabinetry crafted by Glennwood's carpenters. Six windows and glass doors to the balcony provide that unbeatable, trademark view of the lake enjoyed at homes north of Harbor.
